Amendments to the Claims:

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of the Claims

Claims 1 to 37 (canceled)

- 38. (previously presented) A method of treating colorectal cancer in a human comprising, administering an effective amount of theaflavin-3-gallate and theaflavin-3'-gallate to a human in need thereof.
- 39. (previously presented) A method of treating colorectal cancer in a human comprising, administering to a human in need thereof theaflavin-3-gallate and theaflavin-3'-gallate in an amount sufficient to suppress the growth of cancerous colon cells in the human.
- 40. (previously presented) A method of treating premalignant colorectal adenoma in a human comprising, administering an effective amount of theaflavin-3-gallate and theaflavin-3'-gallate to a human in need thereof.
- 41. (previously presented) A method of treating premalignant colorectal adenoma in a human comprising, administering to a human in need thereof theaflavin-3-gallate and theaflavin-3'-gallate in an amount sufficient to suppress the growth of premalignant colorectal adenoma cells in the human.
- 42. (previously presented) A method of preventing colorectal cancer in a human comprising, administering an effective amount of theaflavin-3-gallate and theaflavin-3'-gallate to a human in need thereof.
- 43. (previously presented) A method of preventing colorectal cancer in a human comprising, administering to a human in need thereof theaflavin-3-gallate and theaflavin-3'-gallate in an amount sufficient to suppress the growth of colon cells in the human.
- 44. (previously presented) The method of claim 38, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is administered in a food.
- 45. (previously presented) The method of claim 42, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is administered in a food.

- 46. (previously presented) The method of claim 39, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in a composition which further comprises a physiologically acceptable carrier or excipient.
- 47. (previously presented) The method of claim 43, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in a composition which further comprises a physiologically acceptable carrier or excipient.
- 48. (previously presented) The method of claim 39, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in an oral composition.
- 49. (previously presented) The method of claim 43, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in an oral composition.
- 50. (previously presented) The method of claim 38, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in a nutraceutical.
- 51. (previously presented) The method of claim 42, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in a nutraceutical.
- 52. (previously presented) The method of claim 38, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in a dietary supplement.
- 53. (previously presented) The method of claim 39, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in a dietary supplement.
- 54. (previously presented) The method of claim 40, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in a dietary supplement.
- 55. (previously presented) The method of claim 41, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in a dietary supplement.
- 56. (previously presented) The method of claim 42, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in a dietary supplement.
- 57. (previously presented) The method of claim 43, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in a dietary supplement.
- 58. (previously presented) The method of claim 38, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in an extract of black tea.

- 59. (previously presented) The method of claim 39, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in an extract of black tea.
- 60. (previously presented) The method of claim 40, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in an extract of black tea.
- 61. (previously presented) The method of claim 41, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in an extract of black tea.
- 62. (previously presented) The method of claim 42, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in an extract of black tea.
- 63. (previously presented) The method of claim 43, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in an extract of black tea.
- 64. (previously presented) The method of claim 39, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in a capsule, a tablet, a lozenge or a coated tablet.
- 65. (previously presented) The method of claim 43, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in a capsule, a tablet, a lozenge or a coated tablet.
- 66. (previously presented) The method of claim 39, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in a solution, a syrup, or a suspension.
- 67. (previously presented) The method of claim 43, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in a solution, a syrup, or a suspension.
- 68. (previously presented) The method of claim 43, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is formulated to provide controlled time release in the human.
- 69. (previously presented) The method of claim 39, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is formulated as a suppository, cream, gel, or enema, suitable for rectal administration.

- 70. (previously presented) The method of claim 41, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is formulated as a suppository, cream, gel, or enema, suitable for rectal administration.
- 71. (previously presented) The method of claim 39, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in a composition which further comprises resveratrol, a hydroxylated resveratrol analog, a methoxylated resveratrol analog, a rosemary extract, a green tea extract, a orange peel extract, a Mexican bamboo extract, and/or a Huzhang extract.
- 72. (previously presented) The method of claim 43, wherein said theaflavin-3-gallate and theaflavin-3'-gallate is in a composition which further comprises resveratrol, a hydroxylated resveratrol analog, a methoxylated resveratrol analog, a rosemary extract, a green tea extract, a orange peel extract, a Mexican bamboo extract, and/or a Huzhang extract.
- 73. (previously presented) The method of claim 39, wherein said theaflavin-3-gallate and/or theaflavin-3'-gallate is present in a concentration of between 50 μ M and 100 μ M.
- 74. (previously presented) The method of claim 43, wherein said theaflavin-3-gallate and/or theaflavin-3'-gallate is present in a concentration of up to 5% by weight.
